

“MY SHOT” (Prince’s Grant Newsletter)

September 2007

Dear Homeowners

Our Chairman, Don Schoeman, is providing you with comprehensive feedback on the recent AGM and the decisions taken at the AGM.

To avoid an overdose of information from Prince’s Grant, “My Shot” for this month will be a short one.

Feedback on our security is that we are making good progress with registering all contractors and staff who work on the estate. We have also considered within the last month a number of demonstrations for security equipment and fencing. We will keep homeowners abreast of developments in this regard.

Other housekeeping matters that require special attention, is a request from the neighbouring farmer that Prince’s Grant homeowners do not use the “short cut” through the New Guelderland Sugar Estate as the farming activities and low visibility, as a result of the sugar cane height, makes this road particularly dangerous during the rainy season.

The golf course at Prince’s Grant is in absolute splendid condition and I can only recommend that anybody who could get to Prince’s Grant, to do so urgently to experience a golf course in peak condition.

From a staff point of view, we wish to thank all homeowners, who participated in the AGM, for their encouraging and supportive comments during the weekend.

Regards
Chris

PS. Please watch out for Adilson Da Silva, who is participating this weekend in the Alfred Dunhill Cup in Scotland.

. THE WAY LIFE SHOULD BE LIVED.
